

I wanted to comment that it would be unfair to deprive my community the opportunity to enjoy Christian broadcasting. K-Love is listened to daily by all family members in my home. This country was founded on religious freedom and as such has become the greatest in the world. However, I would hate to see our future if we continue to suppress God in our lives. Please do not suppress this ministry's ability to deliver good entertaining music as well as the word of God to the communities that it serves. Yes, I am a voter and taxpayer.
